Dyckerhoff Architects Night
Main Station Stuttgart

Attending the "Dyckerhoff Architect Night" at Zeche Zollverein, ingenhoven architects will present the Main Station Stuttgart, Europe's largest infrastructure project. The event which takes place on the 3rd of May brings together renowned architects and project participants from all across Germany. It encourages the exchange of knowledge on current projects and discusses trends related to the material concrete. At the Main Station Stuttgart, the characteristic columns will be made of a specially manufactured white concrete. The columns will later form the roof of the of the new subterranean station with its large circular „light eyes”.
