German Sustainability Award

We are pleased to announce that our office has been selected as one of the three finalists for the German Sustainability Award 2025 in the "Companies" category. The expert jury recognized our team's outstanding contribution to sustainable development in the architecture industry. Since our foundation in 1985, we have been pioneering in sustainable architecture. Our holistic approach, based on the registered supergreen® concept, goes far beyond conventional standards. Our design philosophy and self-motivation to give back more to society and the environment than our projects take is the core reason why our projects achieve top-tier sustainability certificates worldwide. The prestigious GSA recognition, presented in collaboration with the Federal Ministry for Economic Affairs and the German Chamber of Commerce and Industry (DIHK), recognizes leaders of sustainable transformation across 100 sectors. The award ceremony will take place on 28 November 2024 in Düsseldorf. We look forward to learning about the innovative approaches of other industries at the event, being inspired, and discovering the perspectives of speakers and experts.
