On January 25, the DAM Prize 2019 will be awarded in the Deutsches Architekturmuseum (DAM) in Frankfurt. Marina One has already been highlighted as one of the three best projects from abroad and will be part of the exhibition "The 25 best buildings in / from Germany."

The exhibition for the DAM Preis 2019 shows current architecture from Germany and remarkable projects by German architectural firms in other countries. From a longlist of 100 buildings completed between autumn 2016 and spring 2018, a jury has selected the 22 presented building ensembles in Germany and three examples from abroad, including Marina One. In 2019, the prize of the Deutsches Architekturmuseum (DAM) will be awarded for the third time in close cooperation with JUNG as a cooperation partner.

The nominated project Marina One in Singapore is to date the largest project by ingenhoven architects. It was officially opened on 15th January 2018. As an international role model for living and working, Marina One makes an innovative contribution to the discourse on mega-cities, especially in tropical regions, which, in the context of increasing population and climate change, face enormous challenges.

Presentation of the DAM Preis 2019 and exhibition opening:  
Friday, January 25, 2019, 7 p.m.

Exhibition period:  
January 26 – April 22, 2019
