

08.05.2025

finalist - Architizer A+ Awards | Alpine Start House

Date

08.05.2025

Our Ski Start House is an energy self-sufficient, modular, multi-purpose pavilion. A pioneering concept for temporary sports infrastructure in the Alps, it was first used at an altitude of 3,700 metres on the Matterhorn in Switzerland. Our project has now been selected as one of the top 5 projects worldwide in the Architizer A+ Awards. We are delighted to receive your vote for the Start House in the Pop-Ups and Temporary category: > vote for our project here. Click here to see more about the project at Architizer.
