Merry Christmas and Joy for 2023

Date
21.12.2022

As the holiday season approaches, we want to take a moment to wish you a joyous year's end. As architects, it is our mission to create beautiful and functional spaces that profoundly consider the impact on the environment and pave new and supergreen ways into our collective future.

Thank you for your support and contribution to our endeavours – your commitment to building a more sustainable future is truly and deeply appreciated. We look forward to shared ventures and projects in the coming year. Warm regards,

Christoph Ingenhoven

Martin Reuter

Michael Rathgeb
